This architectural feature was once a water tower which allowed for the first flush toilet in Richmond.

This stone is a marker of what was once known as "The Richmond Yacht Club".

In the 1950s you could watch a movie at this location, in 2026 you can buy an antique or candy here.

The patron saint of beekeepers.

In March of 1936 floodwaters were so high they destroyed the original Dresden-Richmond Toll Bridge. You can find this marker on one of the buildings on the waterfront.

This building has withstood the test of time with its roots dating back to 1846.
